

# Professional Learning Plan: October 24<sup>th</sup>, 2025

## Magnetic Hill School

The following is a brief description of our planned professional learning work for October 24. This work is organized around our district's four collective goals:

One Section of Staff will be working on Instruction in numeracy using the school's data to address our specific needs.

---

Another section of school staff will be working on literacy instruction in early years to better support the unique needs of the students.

---

Early Years French teachers are working on strategies to reach students' full potential in oral language proficiency in French.

---

Middle school French teachers are working on building proficient literacy skills in the French language.

---

The last group of teachers and educational assistants are working on improving executive functioning skills in students to allow them to build a higher level of success in school.
