

# Professional Learning Plan:

January 26<sup>th</sup>, 2026

## Magnetic Hill School

The following is a brief description of our planned professional learning work for January 16th. This work is organized around our district's four collective goals:

Math, Math and more Math

This PL day is all about Numeracy in all different grade, and ability levels. From what to do when the understanding is limited to what to do when the students needs to be stretched.

Literacy, literacy and more literacy.

Let's look at literacy for those who struggle and those that need a stretch.

The EAs are working on teaching emotional regulation to students.

Physed teachers will be learning how to teach Pickleball.

**The Staff at Magnetic Hill School continue to make the educational experience the best we can for your children.**
