

Professional Learning Plan:

March 27th, 2026

Magnetic Hill School

The following is a brief description of our planned professional learning work for March 27th. This work is organized around our district's four collective goals:

The entire school is attending a session on trauma-assumed practices. They will then be working in their teams reviewing the latest report card data to assure students are getting what they need to be successful.

In the afternoon Physed teachers will be learning how to teach Pickleball.

**The Staff at Magnetic Hill School
continue to make the
educational experience the best we can
for your children.**
